EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory Durbin on 7/25/2007.

The application has been amended as follows:

17. An article of manufacture comprising:

a tangible computer readable storage usable medium having computer readable instructions embodied therein to cause a processor to execute a method comprising:

defining a protection domain for a set of errors using an association between data and a first integrity metadata, the protection domain to protect data traversing an input/output (I/O) datapath having a storage device and a first generation integrity point for a host as opposite endpoints;

defining a first sub-domain nested within the protection domain using an association between the data and a second integrity metadata, the first sub-domain to further protect data traversing a portion of the datapath having a second generation integrity point as an endpoint;

defining a second sub-domain nested within the protection domain using an association between the data and a third integrity metadata, the second sub-domain to

further protect data traversing a position of the datapath having a third generation integrity point as an endpoint; and

wherein the first and second sub-domains are nested in the protection domain as a hierarchy.
